

EDITORIAL

On behalf of the editorial committee, we are grateful to all authors for contributing to the 1st 2018 Symposium on Electrical, Mechatronics and Applied Science (SEMA 2018). The symposium is jointly organized by the Faculty of Electrical Engineering and Centre for Robotics & Industrial Automation (CeRIA) and was held at Faculty of Electrical Engineering, Universiti Teknikal Malaysia Melaka (UTeM), Malaysia on 8th November 2018. SEMA 2018 offers academicians, post-graduate students, as well as researchers and engineers from industry, especially in the field of engineering and technology, a platform to present their research findings, establish a mutual knowledge transfer and networking and sharing to the community.

This symposium proceedings contains a compilation of 82 papers presented orally from total of 101 manuscript submissions received from local and international institutions. All papers are peer reviewed by over 78 experts in various areas of electrical, mechanical and applied sciences to ensure the highest quality. It is hoped that through this event, ideas and solutions to the problems and needs of the local industry can be shared and thus, bridging the gap between universities and industries in Malaysia. This is in line with the increasing demand for innovative research ideas for solving real engineering problems which advocate the provision of rigorous study among distinct communities. The proceedings can also be electronically accessed via

Lastly, as the Editor-in-Chief, I would like to express our gratitude to the fellow reviewers for their sincere service in reviewing the submitted papers for this proceeding and special thanks to all members of the organizing committee for their tireless effort for making the symposium such a successful event. We hope to see you around in the next event of SEMA 2020.

Thank you
